A

Atlantic All-Weather Windows

*Peter McKinley,
Director of Sales and Marketing
peter.mckinley@atlanticwindows.com
(506) 538-2361
www.atlanticwindows.com*

At Atlantic Windows, our dedication to superior craftsmanship and pursuit of innovation results in superior solid-vinyl windows and entrance systems of which our clients can be proud. Among Atlantic Canada's most energy efficient windows, we exceed all building code performance requirements backed by the best warranty in the market.

B

Benchmark Fabricators Inc.

*Keith Flynn, President
kflynn@benchmarkfabricators.com
(506) 204-6741
www.benchmarkfabricators.com*

Benchmark Fabricators Inc. is a leader in custom wall panel system manufacturing, delivering cutting-edge solutions through innovative design and advanced fabrication techniques. With a state-of-the-art CNC cutting and forming operation, we tailor each system to reflect the unique vision of our clients, blending precision with creativity. We specialize in a diverse range of panel systems, including ACM, MCM, AL and Exposed Fastener Systems as well as others. Each product is crafted using high-quality materials to ensure exceptional durability and minimal maintenance. Beyond aesthetics, Benchmark is committed to sustainability. Our energy-efficient solutions help reduce environmental impact, making homes and businesses more eco-friendly without compromising style or performance. Available in a wide array of finishes and colours, our systems enhance the architectural integrity of every project. Our collaborative approach sets us apart—we work closely with architects, contractors, installers, and manufacturers to stay ahead of industry trends and deliver results that exceed expectations. At Benchmark Fabricators Inc., we don't just build panels—we bring visions to life with craftsmanship, innovation, and a deep respect for design.

C

ClairiTech Innovations

*Serge Colin, President
s.colin@clairitech.com
(506) 962-8746
www.clairitech.com*

ClairiTech Innovations designs advanced clean air technology that protects homeowners' health and investment while saving energy costs. The manufacturer offers a full range of humidity control and ventilation solutions for the whole home, and for basements, crawlspaces, apartments, condos and garages.

E

Extreme Window and Entrance Systems

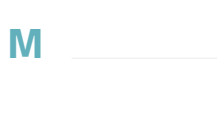

*Phyllis Bannister, Founder, VP and CFO
pbannister@extremedoors.ca
(506) 384-3667
www.extremedoors.ca*

Extreme Window and Entrance Systems stands at the forefront of crafting premium, Energy-Certified custom window and entrance systems—backed by over 25 years of manufacturing excellence. Proudly rooted in Atlantic Canada, Moncton, New Brunswick, our dynamic team is driven by passion, expertise, and precision. Equipped with cutting-edge technology and advanced engineering, every Extreme system is manufactured to the highest standards of quality, performance, and innovation. Through our trusted network of expert dealers, we are committed to exceeding expectations—delivering products that are the right fit for your home, the right fit for your climate. Sustainability is at the core of what we do. We proudly recycle 100% of our vinyl, aluminum, and glass, and are actively working toward becoming a net-zero manufacturing facility. All Extreme systems are Energy Certified, North American compliant, and built in accordance with the National Building Code. Clarity. Comfort. Craftsmanship. Built for life.

F

Fantech

*Alexey Alimov, Director of Marketing
alexey.alimov@fantech.net
(226) 231-4927
www.fantech.net*

Fantech designs and manufactures high-performance heat and energy recovery ventilators that deliver fresh, clean air while conserving energy. Engineered for today's tighter, energy-efficient homes, Fantech HRVs and ERVs recover up to 80% of heat or energy from exhausted air, reducing heating and cooling costs year-round. Fantech's ENERGY STAR® certified models meet strict performance standards and support sustainable building goals, including Passive House and Net Zero designs. With smart controls and flexible configurations, they integrate seamlessly with modern HVAC systems, providing comfort, energy savings, and long-term reliability.

H

Hickey's Timber Mart

*Jay Hickey, Manager
jay.hickey@timbermart.ca
(706) 699-4693
www.hickeystimbermart.ca*

Hickey's TIMBER MART is a Newfoundland owned and operated family business serving the community since 1973. Starting in a garage, with a van and a supply of windows and doors, Jim and Mary Hickey began Hickey's Building Supplies. Forty-five years later, a part-time venture turned into a complete building materials and hardware store with four locations; the first two in Upper Gullies and Harbour Main, followed by Torbay Road in St. John's, then in 2022, Main Road Goulds.

M

Marwood Ltd, Cape Cod Siding

*Brian Rose, Inside Sales Manager
brian.rose@marwoodltd.com
(902) 832-7504
www.marwoodltd.com
www.capecodsiding.com*

Cape Cod Siding, a division of Marwood Ltd, produces siding, shingles and trim profiles. Marwood Ltd is a value-added manufacturer and specializes in outdoor building products.

Mr. Electric

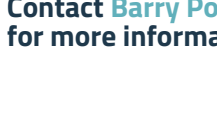

*George Cornick, VP of Operations
george@keanspumpshop.com
(709) 722-4173
www.mrelectric.com/st-johns*

Mr. Electric of St. John's, Newfoundland and Labrador is a residential and commercial electrical service company specializing in electrical efficiency and upgrades. When you face a wiring issue requiring diagnosis, let Mr. Electric of St. John's handle it all. Our professional electricians in St. John's have the skills and expertise to carry out safe, high-quality work, giving you ultimate peace of mind.

N

NorthRidge Stone

*Caleb Curtis, Product Manager
caleb.curtis@northridgestone.com
(506) 252-4171
www.northridgestone.com*

NorthRidge Stone combines two powerful forces in one company. Our revolutionary automated production plant and a world-class product offering that combines strength, durability, and beauty with the smartest stone attachment technology on the market. Our Product differentiators: Quick Loc attachment, Tru Fit overlap system, Storm Dri advantage, Roc Max strength, Color Thru vibrancy, and Versa Flex Corners.

T

Thermalwood Canada

*Jason Martell, Project Manager
jmartell@thermalwoodcanada.com
(506) 252-4196
www.thermalwoodcanada.com*

Thermalwood Canada specializes in the thermal modification of diverse wood species, serving a range niche markets with high performance, sustainable wood products. Our expertise is in hardwoods with a primary focus on decking, cladding, dimensional lumber and custom production.

V

Ventgrid

*Anthony Smith, General Manager
anthony@ventgrid.com
(902) 273-3051
www.ventgrid.com*

Ventgrid12™ is a high quality and durable product for building assemblies where a drainage/ventilation air space is needed such as behind siding and under roofing. Made almost completely from recycled plastic, it is highly resistant to deterioration and degradation. Ventgrid12™ will not decay, rot, absorb moisture or support mold growth. Ventgrid12™ is a high-value building product that is synonymous with high-quality building construction.

VoltsUp Technologies Inc.

*Michael Alan Murley, CEO
info@volts-up.com
(519) 889-1968
www.volts-up.com*

At VoltsUp Technologies, we're not just another consulting firm - we're the trailblazers of clean energy innovation. Our team boasts over 35 years of experience, having redefined the industry with our comprehensive end-to-end solutions for electrical and electronics products, manufacturing, and project management. With over 40+ innovative product designs, we now offer smart home building, with a smart home design by us. Our team is not just a team; we're a league of extraordinary professionals who are members of over 99 prestigious associations. We don't just design products; we engineer masterpieces that include solar hot water systems, solar PV systems, wind turbine remote systems, building automation systems, LED lighting systems, electric vehicle charging stations, remote power systems, home automation systems, and factory automation systems. Our team is a global member of the National Association of Home Builders, which is one of the largest trade associations in the United States, representing the interests of home builders, remodelers, developers, contractors, and associated businesses. VoltsUp Technologies already established grassroots in the USA.
